## Southern Blueberries set of 2

These are sweet, juicy Rabbiteye blueberries which are large fruits with wonderful flavor and good color. We sell them in a set of two kinds, "Tiff Blue" & "Climax" because two different varieties are best for cross pollination. They can be grown in zones 4-8 but do best in 6-8. They ripen from June to early July.

 \$29<sup>95</sup>

## Navel Orange

This orange is prized because of its large sized, easy-to-peel, sweet, juicy fruit that ripens November through January. The trees are self-fertile and withstand temperatures down to 27 degrees. These trees are in 2 gallon containers. Trees will usually not grow to exceed 6-8 feet when potted. Note, citrus trees cannot be shipped to Florida, Texas, Louisiana, California or Arizona

\$39<sup>95</sup> 

## Valencia Orange

This orange is prized because of its sweet, juicy fruit that ripens February-March. The Valencia orange tree is known among growers as a tough tree that stands up to less than desirable soil conditions. The tree is medium sized with oval dark green leaves. The oranges are medium sized with a smooth skin. Valencia's can produce fruit in colder regions, so long as the tree is moved to a greenhouse or sunroom before the first frost.

The trees are self-fertile and withstand temperatures down to 27 degrees. These trees are in 2 gallon containers. Trees will usually not grow to exceed 6-8 feet when potted. Note, citrus trees cannot be shipped to Florida, Texas, Louisiana, California or Arizona

## Northern Blueberries set of 2

This is a set of two High bush blueberry plants. These are flavorful blueberries which are large and have wonderful flavor and good color. You need to plant two varieties because for cross pollination They can be grown in zones 3-8 and ripen from June to early July.

Duke is an early-season variety and is high-yielding and hardy. The fruit is medium to large, slightly tart, and very firm. It retains its quality better than most other varieties. Duke grows upright to a height of 4-6 feet.

Jersey is a late-season variety that is easy to grow, high-yielding, and one of the oldest and most widely grown blueberry varieties. The berries are dark blue, medium in size, and very sweet. A tall and well-shaped bush, it has excellent ornamental value, too.
